

## **Platinum 120 Watt High Efficiency Multi-Crystalline Solar Panel Specs:**

**Aluminum framed solar panels to improvise the quality and usability of solar panel. The panels made from High Efficiency Polycrystalline module. This panels is made with only High purity Grade "A" silicon cell and rejects damaged second cells.**

**Nominal Output Voltage 24.0 V**

**Operating Voltage (Vmp): 34.4 V**

**Operating Current (Imp): 3.49 A**

**Open Circuit Voltage (Voc): 43.2 V**

**Operation Temperature: -40°C to 85°C**

**3ft wire included**

**Weight: 24.25Lbs**

**Product Dimensions: 48.98" x 26.57" x 1.38" / 1500mm x 675mm x 35mm**
