

Platinum MSLink Wireless Communication Unit

Benefits of Platinum MSLink Module:

- 1. Easy Primary/Secondary operation setup.**
- 2. Low cost.**
- 3. No need to cut the driveway.**
- 4. High reliability.**

Platinum MSLink is a wireless communication module which can set up two Platinum gate operators to work in primary/secondary operation mode without cutting the driveway to run wires between them.

The setup is simple. First set the dip switches on two modules to match each other. Second plug them into primary and secondary operator main boards. Next, power up the operators and wait for about 15 seconds. And then, reset the primary gate operator. Once you hear the reset alarm sounds from both operators, the primary/secondary wireless operation is ready to go.
