# Platinum Cloud Account Register procedure

On the login page, register an account with email address as user name. The registration is verified through email.

## Procedure 1. Amazon Web Service Email Verification

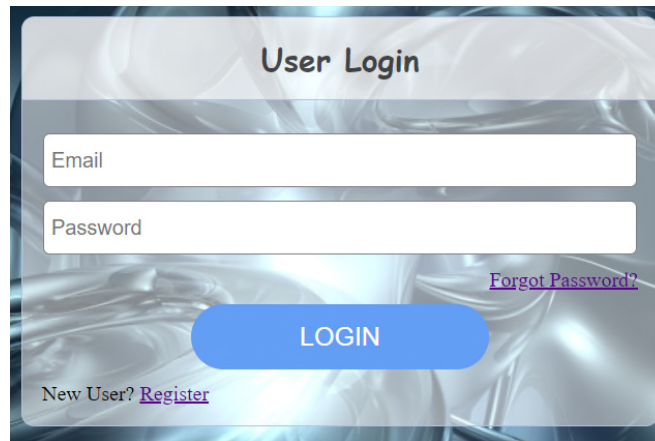

As per Amazon Web Service security policy, all emails that use to register to Platinum cloud account have to be verified and approved by Amazon Web Service. The email verification steps are as below:

- a. Call Platinum customer service and request a Platinum cloud account registration.
- b. Provide your email address for customer service to add in the user list.
- c. Once Platinum processes your request, an email will be sent to your email address from “**Amazon Web Service**” for email verification.
- d. Open the email and click the link in the text to complete the process. A verification successful message will be shown on the web page from the link.

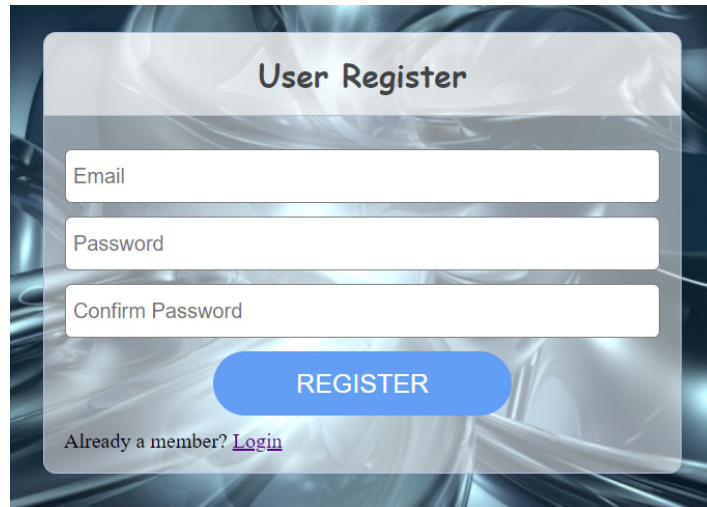

## Procedure 2. Platinum Cloud Account Registration

Once the email address is verified by AWS, the Platinum cloud account can be registered by the steps below:

- a. Open the cloud web page from “<http://54.241.70.60/login.php>”.

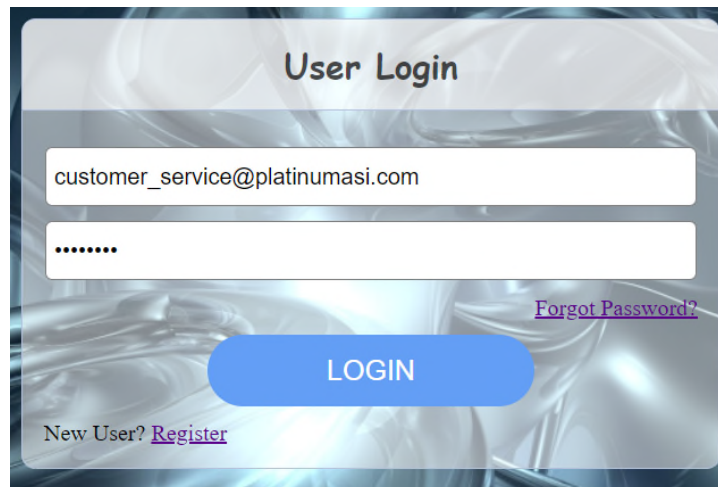

- b. Click “**Register**” to open the register page. Enter the AWS verified email address and set the password (**Password needs to be at least one number, one uppercase letter, one lowercase letter and at least 8 or more characters**).

The image shows a 'User Register' form with a blue background. It features three input fields: 'Email', 'Password', and 'Confirm Password'. Below these fields is a blue 'REGISTER' button. At the bottom left, there is a link that says 'Already a member? [Login](#)'.

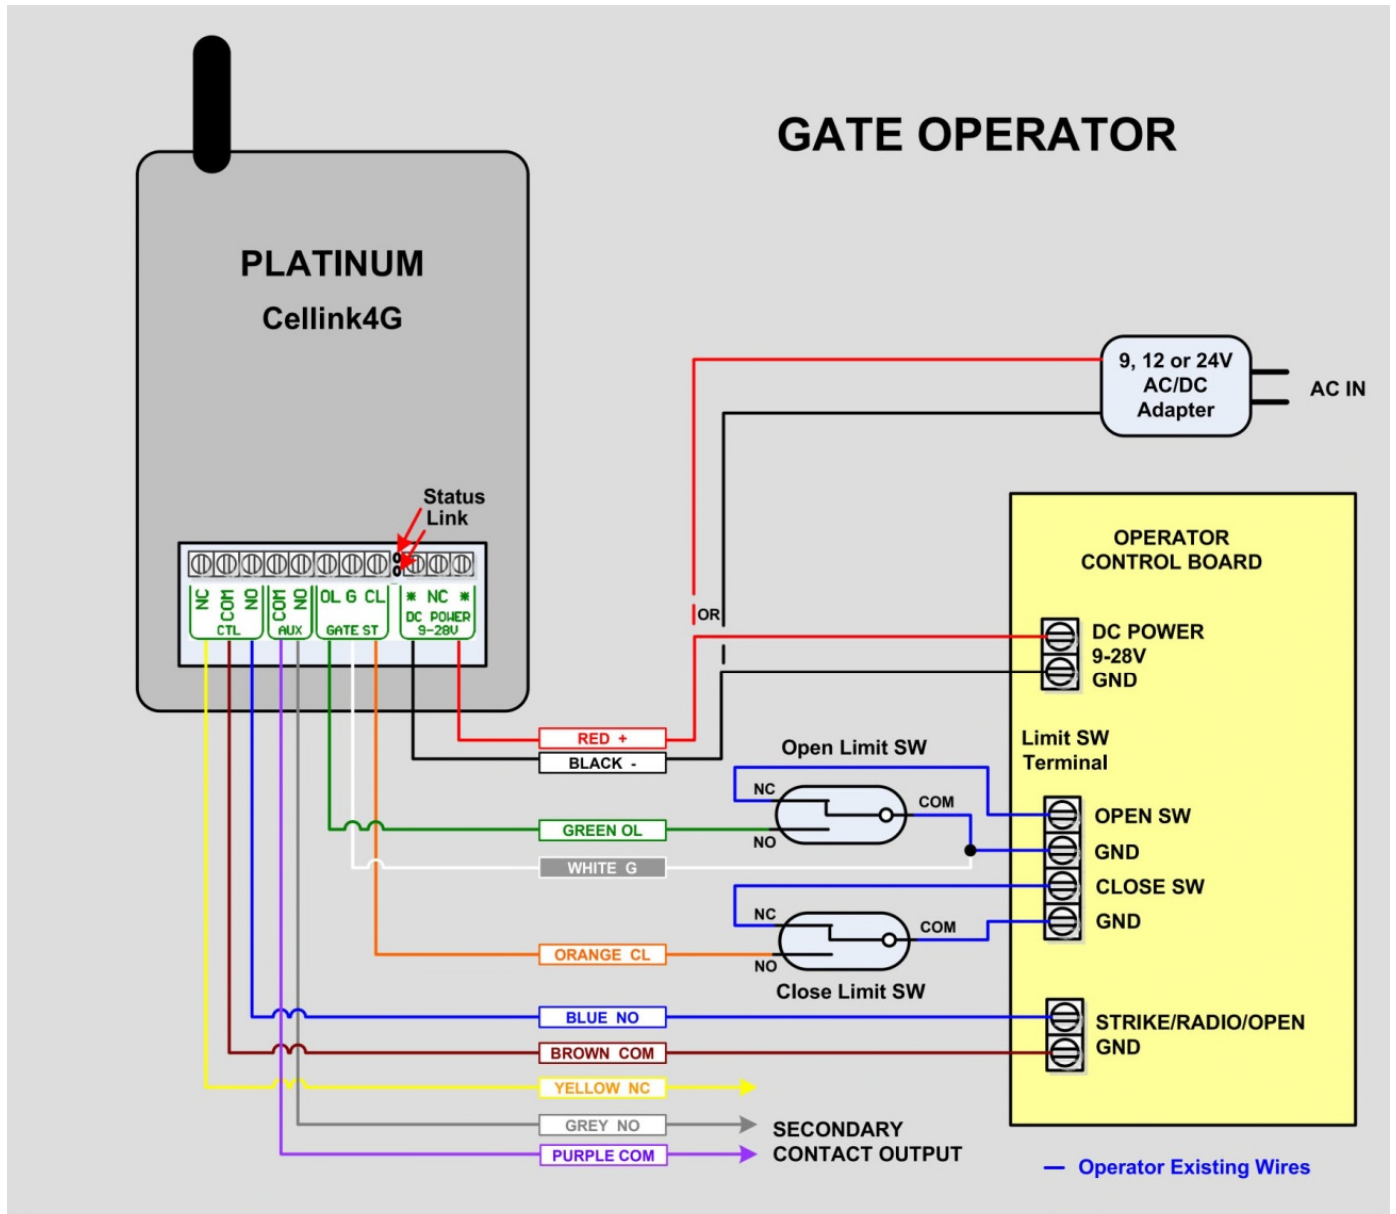

- c. Click the “**REGISTER**” button as shown at above picture, an email will be sent to the email address from “**Platinum Access Cloud**”.
- d. Open the email and click the link to complete the register process.
- e. Log in the cloud with the email and password.

The image shows a 'User Login' form with a blue background. It features two input fields: the first contains the email 'customer\_service@platinumasi.com' and the second contains a masked password '.....'. To the right of the password field is a link that says '[Forgot Password?](#)'. Below the fields is a blue 'LOGIN' button. At the bottom left, there is a link that says 'New User? [Register](#)'.

- f. If the password is forgotten, click “Forgot Password ?” to reset the password.
